

Class 1 have had a fantastic afternoon planting their first seeds in our allotment. We talked about what plants need to grow and how important vegetables are to keep us all healthy.

We planted onions, potatoes and pumpkin seeds. We are all excited about looking after them and watching them grow.

When we harvest them we can't wait to eat them!

Class 2 have had a wonderful afternoon planting their first seeds in our allotment. We talked about what plants need to grow and how important vegetables are to keep us all healthy.

We planted runner beans and peas. They had amazing knowledge and talked about photosynthesis and carbon dioxide. We are all excited about looking after them and watching them grow and we can't wait to eat them!

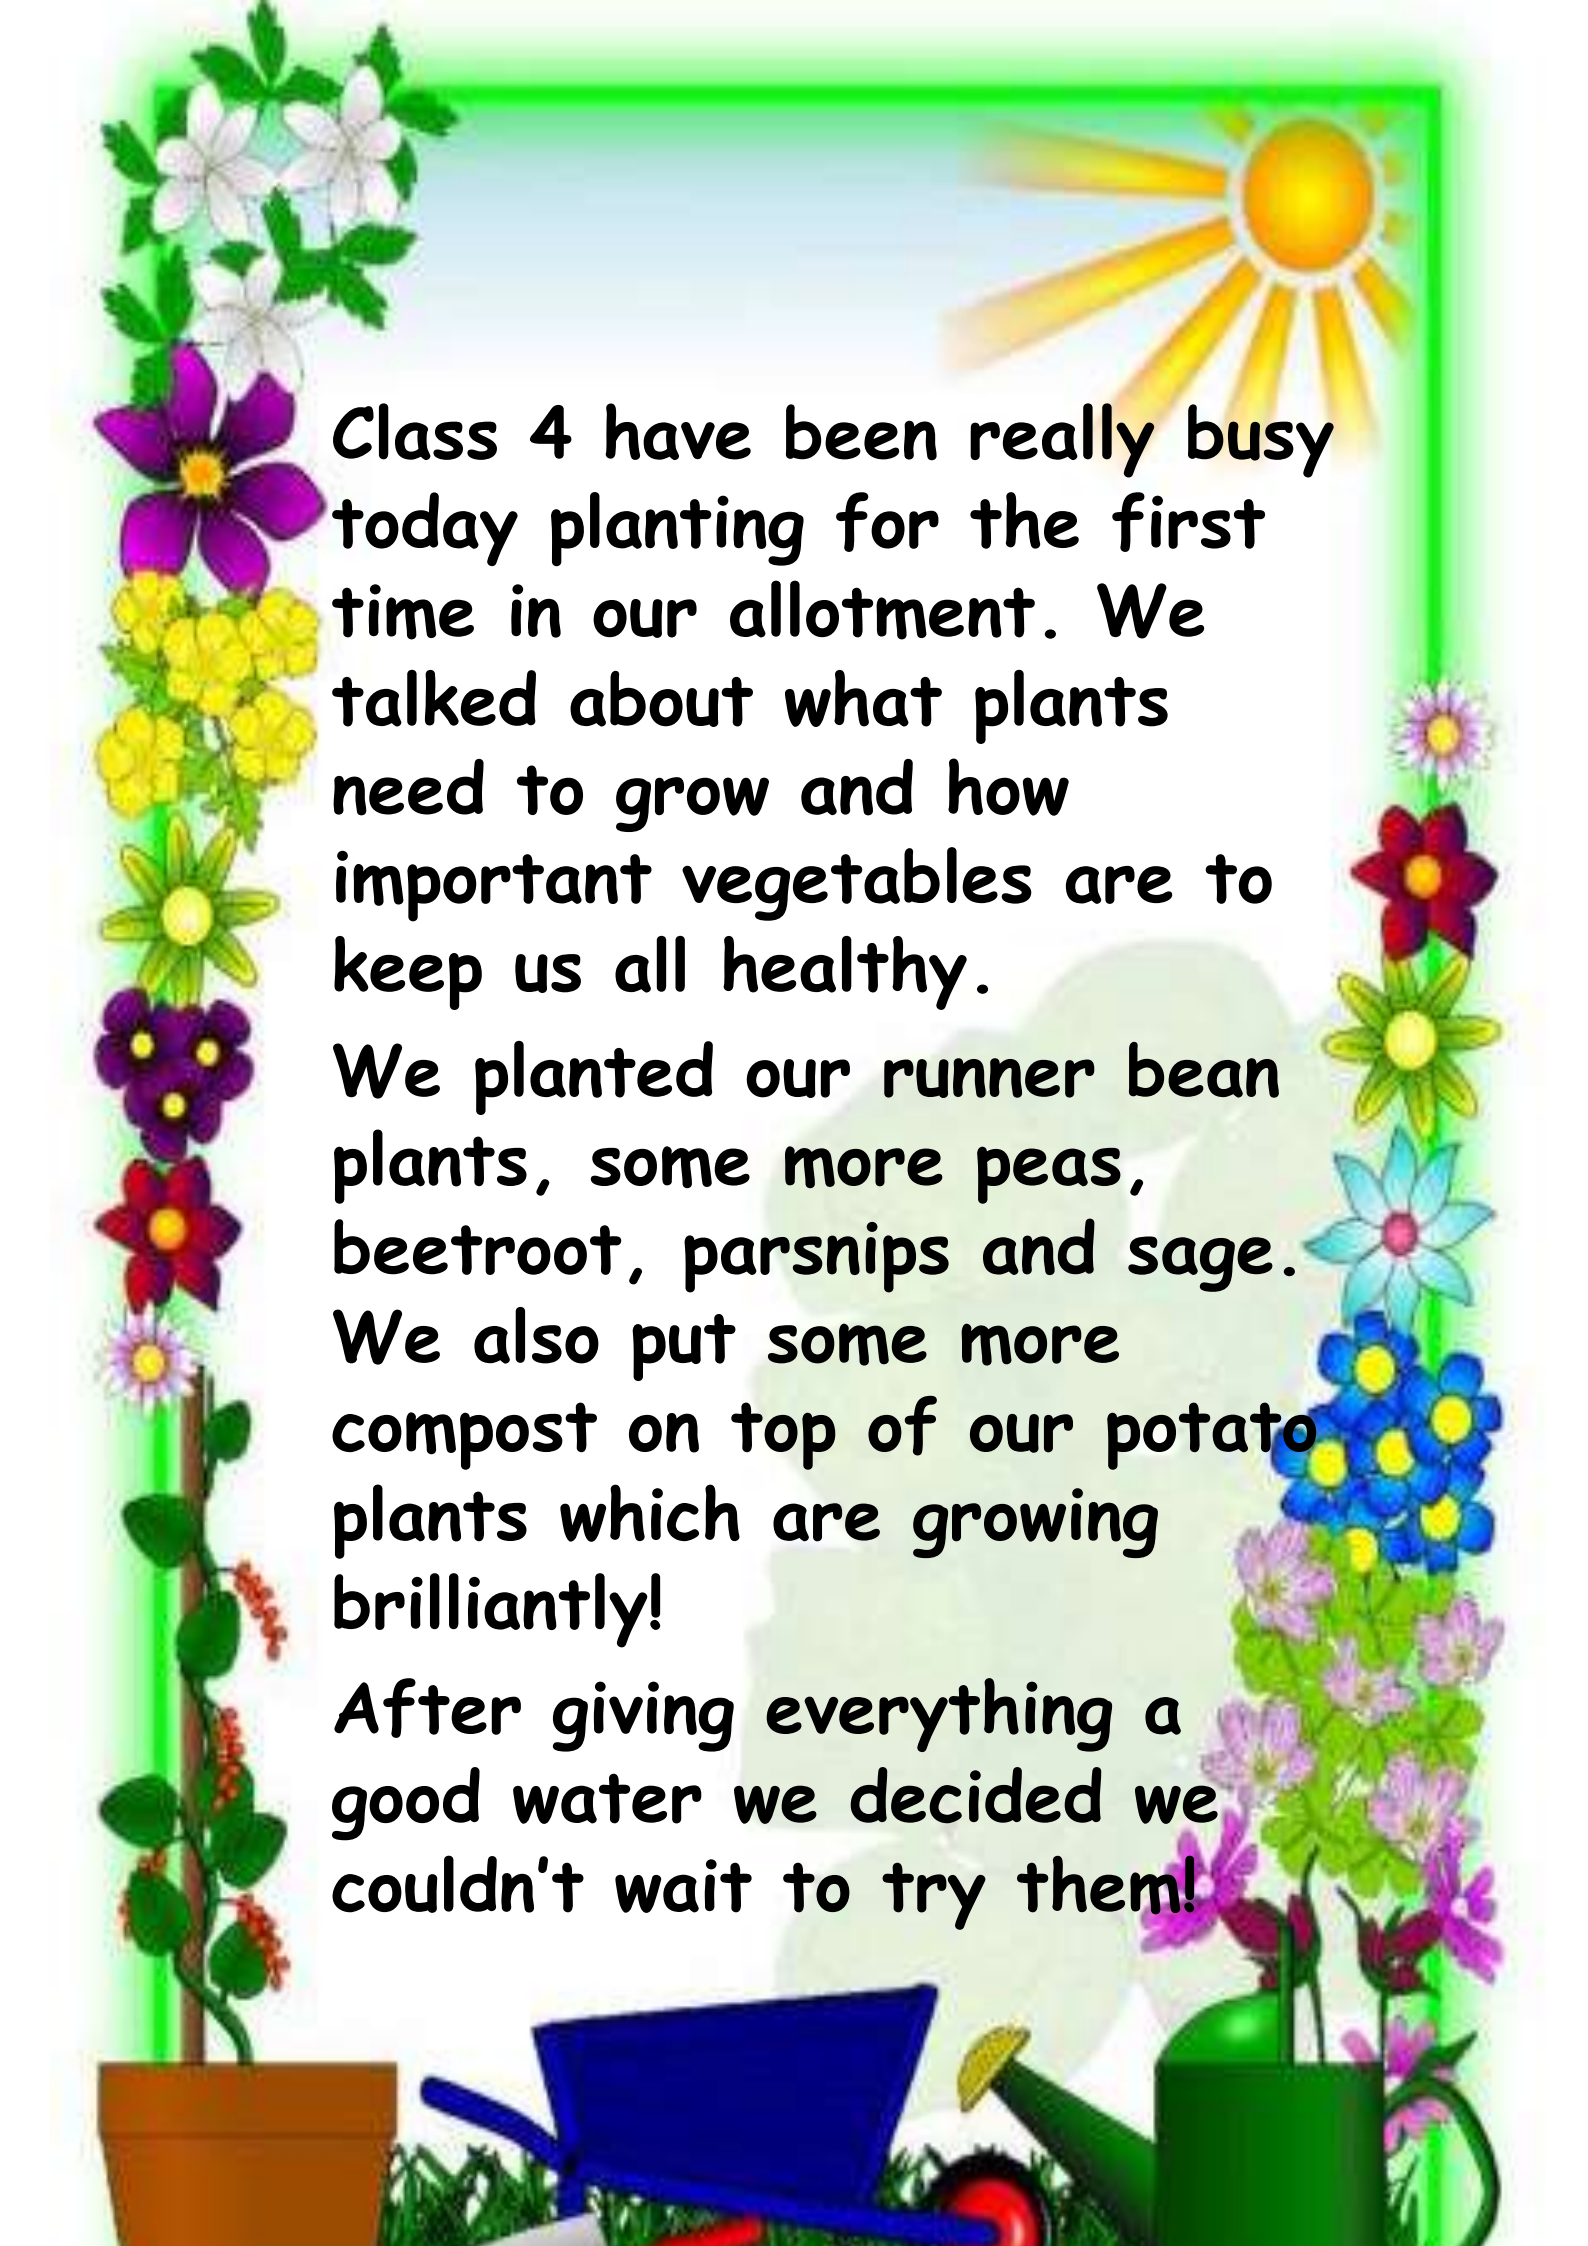

Class 3 have had a brilliant afternoon planting their first seeds in our allotment. We talked about what plants need to grow and how important vegetables are to keep us all healthy.

We planted leeks, cabbage and carrot seeds. They had fantastic knowledge and we are all excited about looking after them and watching them grow. We really can't wait to eat them!

Class 4 have been really busy today planting for the first time in our allotment. We talked about what plants need to grow and how important vegetables are to keep us all healthy.

We planted our runner bean plants, some more peas, beetroot, parsnips and sage. We also put some more compost on top of our potato plants which are growing brilliantly!

After giving everything a good water we decided we couldn't wait to try them!

This week it was Class 5 who have had a great afternoon planting their first seeds in our allotment and their knowledge was exceptional!

We planted spinach, thyme and basil seeds and they put the final covering of compost on top of the potatoes.

Watering cans in hand, they gave all of the seeds they'd sown a water along with all the other vegetables sown by the other classes. Everything is growing brilliantly and now the whole school has enjoyed their first session in the allotment.

Summer has arrived and it was Class 1's turn again to get growing in our allotment! They were totally amazed how much their onions, potatoes and pumpkins they planted had grown. They are so looking forward to give one of their pumpkins to all the classes in October.

Today was a chance to plant radish and lettuce seeds and because the weather was so warm and sunny we all had to give the garden lots of water to help all our vegetables grow even bigger.

Summer has arrived and it was Class 2's turn again to get growing in our allotment! They were totally amazed how much their peas and beans they planted had grown, along with all the other vegetables which were growing brilliantly!

Today was a chance to plant the leek plants into the beds and our tomatoes and because the weather was so warm and sunny we all had to give the garden lots of water to help all our vegetables grow even bigger.

Our pumpkin seeds, which we had harvested last year from our huge class pumpkin, had been drying out over winter.

During our first lesson we were excited about planting our own very seeds and wondered if they would grow.

To our delight they grew brilliantly and now it was time to pot them out into their own special bed in our allotment. As there were only seven plants, our school class council, on behalf of the whole class took this task on and here we are!
